

[illegible][illegible]

This architectural section drawing illustrates a three-story building with a tiled roof. The structure is divided into several vertical sections. The leftmost section features a large ground-floor opening, possibly a garage or entrance, and a staircase leading up. The middle section shows a central staircase and various door and window openings across the three floors. The rightmost section also includes a staircase and multiple openings. The drawing uses hatching to represent different materials and structural elements, such as the roof tiles, walls, and floor slabs. The overall layout suggests a symmetrical or semi-symmetrical design with a central core.
