

 *Tratto di strada comunale interessata dall'intervento*

An aerial photograph of a mountainous landscape. A red line is drawn across the image, tracing a path that starts in the upper left, moves right, then curves down and left, and finally curves down and right towards the bottom right. The terrain is covered with dense green vegetation, likely trees and shrubs, interspersed with lighter brown and tan areas that appear to be rocky or sparsely vegetated. The red line follows a winding route through these different terrain types.
